2024 RVC MANHOLE RESTORATION PROGRAM  
Bid No. 2402E1(1103)

February 16, 2024

## Addendum #1

### In response to questions asked of the Village:

- 1) Potential bidder is requesting information regarding one of the bid items in the bid proposal. See below snapshot of bid item **102SS-C – Maintenance and Protection of Traffic.**

102SS-C	See Notes below	Maintenance and Protection of Traffic				
		N. T. E. LUMP SUM				

It says, "See Notes Below". However, there are no notes below regarding this item. It also says "N.T.E." but has no value next to it. So, are we including this in our total bid price as 1 Lump Sum, and if so, what is the "Not To Exceed" value? Or is this not being included in the total bid price along with the other items that have "N/A" as quantities? **The N.T.E. for this item is \$25,000 if it involved a change order, however it should be included in the lump sum.**

- 2) Page 28 of the Bid Package for the 2024 RVC Manhole Restoration Program contains the following language: "Contractor should include prices for day time work 9:30-3:00 PM (M-F) as well as per hour premium (adder) for night work 11:00 PM to 5:30 AM (M-F)." Appendix A has a the following note: "Work on Sunrise Highway must be completed overnight and coordinated with NYS DOT." Since both manholes are on Sunrise Highway, please confirm if bid pricing is to be based on day time or night time work, and if day time work, advise where to include for the night work adder. **Daytime work on Sunrise Hwy is limited 10am to 2pm, nighttime is as you stated 11pm to 530am. In your lump sum there maybe tasks you may want to perform in the 4-hour window during the day, if you choose to perform all tasks at night that's determined by your company on how you want to work the job. What we ask is you give us job title/payrate for daytime and nighttime work if there is a change order we'll know in advanced what you'll be charging us.**
- 3) Appendix A for the 2024 RVC Manhole Restoration Program notes the following: "Provide vented roadway and solid gates, alternating panels as vented, solid, vented, solid, vented for a total of (5) panels." Please confirm if the existing covers for both MH #603 and MH #598 are to be removed and replaced with new vented 5 panel covers. **Yes, we want the five (5) panels on both new manhole roofs.**

END OF ADDENDUM NO. 1
