

Overview of the KinderCamp Summer Nursery Program

This program is designed to help children explore their own ideas at the same time they are gaining new skills. "Kinder Campers" will review Kindergarten readiness skills through weekly thematic units. We will teach skills through art, science, fine motor, reading and math centers. We will include numerous physical activities to encourage large muscle development in our newly renovated playground and sprinkler park. In art, a variety of media will be used and music and movement games are offered to develop coordination and rhythm. Stories, word games and creative drama offer opportunities for verbal expression. Through directed play in the program, the child develops socially and his or her capacity for adjustment to the formal experience of Kindergarten is enhanced. Academics from the school year are reinforced and continued through play and games. There will be many outdoor activities including sprinkler use opportunities .

We are a pre-school education facility serving Rockville Centre and surrounding communities.

Young children need the opportunity to interact with their peers in an environment especially geared to their needs. We have that environment, come and see for yourself! Call the Recreation Department office at 678-9238 to arrange for an appointment.

In addition to our wonderful classrooms we boast one of the best outdoor playground facilities in the area. Our fabulous playground features age appropriate apparatus as well as a water feature.

Nursery School children use the playground every day, weather permitting.

Each classroom has a vast variety of early childhood learning materials and our building is fully air conditioned.
