

Overview of the Pre-K 4's Summer Nursery Program

This program is designed to help children explore their own ideas at the same time they are gaining new skills. "Summer Nursery" will include numerous physical activities to encourage large muscle development in the playground. In art, a variety of media will be used and music and movement games are offered to develop coordination and rhythm.

Stories, word games and creative drama offer opportunities for verbal expression. Through directed play in the program, the child develops socially. Academics from the school year are reinforced and continued through play and games. There will be many outdoor activities including sprinkler parties and picnics in our newly renovated playground and sprinkler park.

The Recreation Center is fully air conditioned. We are a pre-school education facility serving Rockville Centre and surrounding communities.

Our website is RVCNY.GOV

Young children need the opportunity to interact with their peers in an environment especially geared to their needs.

Call the Recreation Department office at 678-9238 to arrange for a tour.

In addition to our wonderful classrooms we boast one of the best outdoor playground facilities in the area. Our new playground features age appropriate apparatus as well as a water feature.

Nursery School children use the playground every day, weather permitting.
