Local Law No. 2 of the year 2016

A local law to amend the Code of the Village of Rockville Centre, in relation to
(Insert Title)

swimming pools on corner lots.

Be it enacted by the Board of Trustees of the
(Name of Legislative Body)

☐ County ☐ City ☐ Town ☒ Village
(Select one:)

of Rockville Centre as follows:

Section one. Section 340-122 of the Code of the Village of Rockville Centre is hereby amended, to read as follows:

“§ 340-122. Swimming pools.

A. Swimming pools as defined in this chapter and in compliance with the Uniform Fire Prevention and Building Code are permitted in any residential use district as an accessory to a residential dwelling for the private use of the owner of such dwelling and the families and guests of such owner, provided that a permit is obtained in accordance with the provisions of this chapter, other provisions of this Code, and the provisions of the New York State Uniform Fire Prevention and Building Code.

B. Location.

(1) On lots other than corner lots, swimming pools shall be located in the rear third of the lot and shall be set back a minimum of 10 feet from all property lines.

(2) on corner lots, swimming pools shall be located within the rear quadrant and/or the rear third of the lot, taken from a forty-five-degree angle from the adjacent street frontage/corner, and shall be set back at least 10 feet from all property lines. In no case shall any part of the swimming pool be located in a required setback area of a front, rear or side yard.

(3) In all cases, swimming pools shall be set back at least eight feet from every part of

the principal dwelling on the property and at least six feet from any accessory building or structure and detached garage on the property.

C. Fence required.

(1) In all cases there shall be erected and maintained a fence, approved by the Superintendent of Buildings, not less than six feet in height, entirely surrounding and enclosing the swimming pool from all adjoining lots. Such fence shall be constructed of quality materials and shall be designed to contain no openings or projections which would permit hand or toe holds sufficient for climbing, as determined by the Superintendent of the Building Department.

(2) On lots other than corner lots, such required fencing shall be located within the rear setback line of the principal dwelling, as determined by the Superintendent of the Building Department.

(3) On corner lots, such required fencing shall be located within the rear setback line of the principal dwelling, except that an estate-type fence not less than six feet in height may be located beyond the front setback line along the longest street frontage, provided that such fence is set back at least three feet from the property line, as determined by the Superintendent of Building Department, and further provided that evergreen arborvitae or similar landscaping is planted and maintained, as approved by the Superintendent, between such fence and such property line.

(4) On all lots, in addition to all other fencing requirements, a fence not less than four feet high shall be installed and continuously maintained to separate the swimming pool from the principal dwelling.

D. Fence gates; openings. Every gate or other opening in the fence surrounding such swimming pool shall be equipped with a self-closing and self-latching device designed to keep and capable of keeping such gate or opening securely closed. Such gate or opening shall be kept locked at all times the swimming pool is not in actual use.

E. Percentage of lot coverage. The area of such swimming pool shall be added to the area of all main buildings, garages and accessory buildings in computing the permitted building area in a use district.

F. Lighting. There shall be installed minimum security lighting surrounding such swimming pool, as approved by the Superintendent of Buildings. Lighting devices installed in connection with a swimming pool shall be designed so as to prevent glare or rays therefrom from going beyond the property lines.

G. Water supply connections and drainage facilities. All water supply connections and drainage facilities to and from a swimming pool must be approved by the Superintendent of Public Utilities and Superintendent of Public Works and shall be designed to safeguard and protect the water supply system of the Village in compliance with the rules and regulations of said departments. All swimming pools, whether indoor or outdoor, shall comply with said rules and regulations.

H. Materials and construction standards. All swimming pools shall be constructed and maintained of materials having adequate strength to retain the water designed to be contained therein.

I. Drainage. All swimming pools shall have proper drainage sufficient in size, capacity and scope to be able to drain the swimming pool on site within a proper time frame, in accordance with generally acceptable standards, as determined by the Superintendent of Building

Department and the Superintendent of Public Works. No person shall cause or permit a swimming pool to be drained onto public property or onto private property owned by any person other than the owner of the property on which the swimming pool is located.

J. Code requirements. All electric services, devices, pumps, filters and associated swimming pool appurtenances, including alarms, shall be installed, maintained and operated in accordance with the New York State Uniform Fire Prevention and Building Code, and to the reasonable satisfaction of the Superintendent of Electric Department and the Superintendent of the Building Department, and with certification from an approved electrical inspection agency where applicable. Further, the swimming pool and all electrical components or related equipment shall comply with clearance requirements of the National Electrical Code and the National Electrical Safety Code to the satisfaction of the Superintendent of Electrical Department.”

Section two. Any local law or provision of the Code of the Village of Rockville Centre in conflict with this local law is hereby repealed to the extent of such conflict, except that such repeal shall not affect or prevent the prosecution or punishment of any person for any act done or committed in violation of such local law, ordinance or resolution prior to the effective date of this local law.

Section three. If any clause, sentence, paragraph, section, article, or part of this local law shall be adjudged to be invalid by any court of competent jurisdiction, such judgment shall not affect, impair or invalidate any other part of this local law, or the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, section, article, or part thereof directly involved in the controversy in which such judgment shall have been rendered.

Section four. This local law shall take effect immediately upon adoption and filing pursuant to the Municipal Home Rule Law.
